

Smart mobile evaporative cooling

Welcome to a new era of
mobile evaporative cooling

Fits 16"
Ducting

Air Filtration
Capabilities

Up to 25°
of Cooling

Spartan's intelligent cooling core utilizes the natural process of evaporation combined with industry-first technology to cool your surroundings with clean and fresh air.

We've incorporated intelligent sensors, internal filtration, and air filtration capabilities to increase system longevity, cleanliness of the evaporative media, and to ensure maximum air quality.

Dimensions	72" x 48" x 30"
Air delivery	12,500 CFM
Velocity	40+ mph
Coverage	2,500 to 3,000 sq ft
Fan speed (airflow)	Variable (10 speeds)
Oscillation	Horizontal 70° (Variable speeds) Vertical 45° (Manual control)
Water reservoir	60 g / 227 L
Power usage	100 to 1,000 W
Input voltage	*120V (or 220V international option)
Utility frequency	50 / 60 Hz
Noise level	59 dB
Weight (empty)	314 lbs / 142 kg

* Voltages higher than 120VAC requires input cord change and does not comply with standards as listed.

Effective in warehouse settings

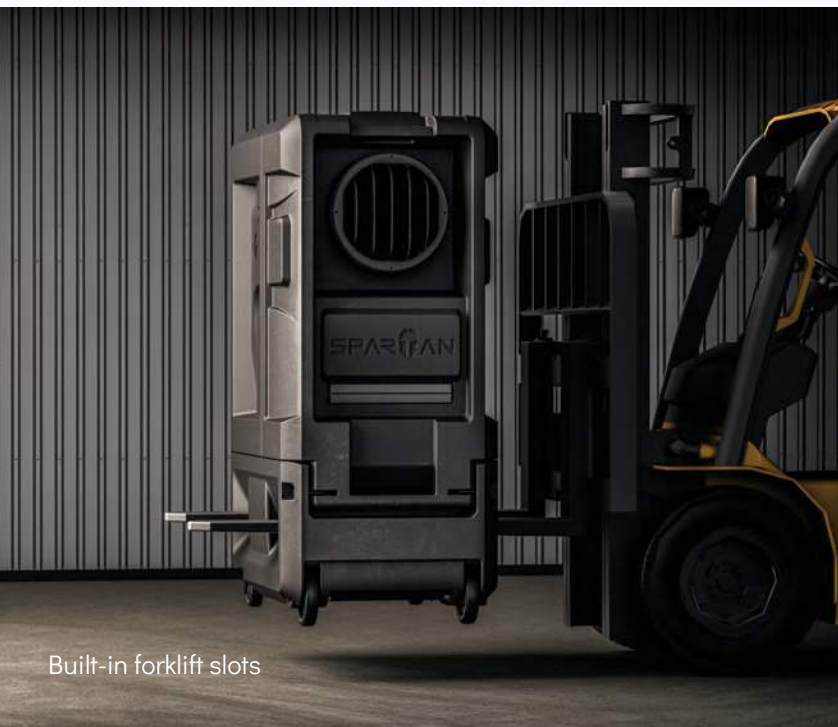

Powerful airflow engine

Air filtration capabilities

Easy ducting features

Built-in forklift slots

Engineered tough
